

2010 WE&T/Operations Forum Editorial Calendar

Month	Topics	Deadline
January	Water reclamation & reuse Hydraulic modeling Preliminary treatment (headworks/screening) 2010 State of the Industry	Aug. 15, 2009
February	Utility management Thickening & dewatering Watershed management Distributed systems	Sept. 15, 2009
March	Odor & corrosion control CSOs/SSOs Public outreach & education Pumps	Oct. 15, 2009
April	Asset Management Trenchless technology Nutrient removal Sustainability	Nov. 15, 2009
May	Biosolids & residuals Membranes Energy management Activated sludge	Dec. 15, 2009
June	Collection systems Filtration Disinfection Information management	Jan. 15, 2010
July	Stormwater Industrial pretreatment Microconstituents Process optimization	Feb. 15, 2010
August	Water reclamation & reuse Tertiary treatment Membranes Bioenergy	March 15, 2010
September	Design innovation Workforce issues Lab practices Low-tech systems	April 15, 2010
October	Thickening & dewatering Fats, oils, and grease Maintenance Financial management	May 15, 2010
November	Sewer rehabilitation Instrumentation Water footprinting Watershed management	June 15, 2010
December	Biosolids & residuals Energy management Operations Challenge Clarification	July 15, 2010
