

Professionals Dedicated To Arizona's Water

WEFMAX in Sedona

March 8-9, 2012 Member Association Exchange Presentation

AZ Water Construction Committee

 Through Education and Training, We Provide Our Membership a Better Understanding of the Construction Processes and Procedures in Preconstruction, Construction, and Start-up Phases of Projects with the Goal of Improving the Entire Project Delivery Experience for All Team Members.

Why Was this Committee Created

- Construction Side Issues and Insights
- Create Project Success
- Education of the Construction Process
- Owners, Engineering Firms, and Contractors

What Has the Committee Been Doing

- Education to AZ Water Members
- Project Delivery Methods
- Construction Challenges and Solutions
- Creating a Construction Track at the Annual

Conference

What Does this Committee Bring to AZ Water

- A Piece of the Water Professionals Puzzle
 - Operating
 - Designing
 - Training
 - Regulating
 - Manufacturing
 - And Now Constructing

What Does AZ Water Bring to this Committee

- Reliability
- Certainty of Performance to Our Water Infrastructure
- Opportunity to be Correctly Viewed as the Professionals We Are
- To Foster that We Too Are:

Professionals Dedicated to Arizona's Water
