STORMWATER SUMMIT 2023

JUNE 27 – 29 KANSAS CITY, MO

Exhibitor Exclusive: Technology Spotlight Call for Presentations

DEADLINE TO SUBMIT: February 21, 2023 SUBMIT ONLINE: www.wef.org/StormwaterSummit

Important Information: If accepted, the presenter(s) will need to work with the Steering Committee to develop presentation content and must abide by the set deadlines to provide materials and input. Presenter(s) agree to pay all expenses relating to contracting a booth on the exhibit floor at the conference.

Technology Spotlight Background Information

This will be the third time we offer technology spotlight (previously mobile session) presentations at the Stormwater Summit. These sessions bring attendees directly to exhibitor booths for topic-focused discussions that allow presenters to showcase products and services in technical and educational presentations combined with equipment or hands-on visuals. This session is open to any exhibitor who can address the subject matter.

Presenters are expected to give up-to three 20-minute presentations back-to back simultaneously with up-to 4 other exhibitors.

What is a Technology Spotlight Presentation?

- Non-PowerPoint learning opportunity
- Hands on experience between vendors, operators, and engineers

What is the process?

- Submit a one-page proposal on the website by 11:59pm ET on February 21, 2023
 - Include description of proposed presentation
- All proposals will be reviewed by the Specialty Conference Steering Committee
- Committee will send feedback
- Work with committee members on final presentation
- Present onsite in your booth

Technical Presentation Information

- Cannot be a sales pitch (presentations will be monitored for this)
- What does/doesn't work for certain technologies
- Example: ideal application, size limitations, calculations, design life, tolerance of active infiltration, etc.
- Should be a technology discussion
- Topics are selected by committee with vendor input

Examples from Past Technology Spotlight Presentations

2022 Technology Spotlight

- Advances in Green Infrastructure Designs Using High-Flow Biofiltration Technology for Stormwater Quality Treatment
- Next-Gen Flood Response and Stormwater Management Using Sensors & Data

2021 Technology Spotlight

- Representative Rainfall for Advanced Stormwater Management and Flood Prediction
- Digital Transformation of Stormwater Infrastructure
- From Continuous Monitoring and Adaptive Control (CMAC) to Smart Watershed Network Management
- Best Practices in Stormwater Infrastructure Investment for Effective Stormwater Management Plans (SWMPs) and Municipal Maintenance.
