WEF/AWWA
The Utility Management Conference 2024
February 13-16, 2024
Portland, Oregon, USA
www.wef.org/utilitymanagement
#UMC24

Pre-Conference Workshops: February 13
Conference: February 14-16

Technical Program
(last updated January 4, 2024)

This conference is jointly hosted by the Water Environment Federation and American Water Works Association with cooperation from the Pacific Northwest Clean Water Association.
Pre-conference Workshops
Additional fees apply

Workshop A: From Disrepair to Prepared (from reactive to proactive): Leveraging the Fundamentals of Maintenance Reliability for Effective Operations and Sustainable Utility Management

Tuesday, February 13, 2024
8:30 a.m. - 5:00 p.m.

Speakers: Pam ELardo, Steven Hutchings, Brown and Caldwell; Adam Comfort, King County Dept of Natural Resources and Parks; Peter Boone, Tualatin Valley Water District; Christa Overby, City of Portland Bureau of Environmental Service; Jaclyn Knoth, City of Bellevue, WA; John Nice, Mark Poling, Clean Water Services

Focusing time and attention on maintenance programs and practices is one of the most significant opportunities for utilities to address rising costs, minimize service disruptions, and ensure sustainability of infrastructure investments. Learn how effectively implement maintenance programs, start a Reliability Centered Maintenance (RCM) approach, and provide the necessary foundation to extend infrastructure operability, facilitate knowledge retention, meet regulatory requirements, and make the most of financial investments. Don't miss this interactive workshop where you'll hear from national and regional utility manager, practitioners, maintenance personnel, and operators who are at various levels in their maintenance reliability journey. Learn from a range of experts and real-world experiences through interactive problem solving, presentations, and discussions. Come ready to hear and share best practices, tangible examples, key insights, data-driven solutions, and appropriate technology applications. This workshop will help you to advance your utilities’ maintenance program and practices, including:

- In-depth understanding of the necessary requirements to increase system reliability by utilizing failure analysis and applying improved maintenance strategies.
- Proven strategy development using maintenance and reliability best practices to significantly decrease maintenance and operating costs, while reducing equipment failure risks.
- Adopting maintenance programs through change management principles, including consistent communication tactics and cultural components can deliver results, supporting and sustaining the success of maintenance teams.
Pre-conference Workshops
Additional fees apply

Workshop B: Commissioning Capital Projects as a Life Cycle Process
Tuesday, February 13, 2024
8:30 a.m. - 5:00 p.m.

Speakers: Salil Kharkar, DC Water; Stacy Passaro, Passaro Engineering; Theresa Bruton, DC Water; Diala Dandach, Brown and Caldwell; David Parker, DC Water; Jeff Lucas, Xylem; Jaime Alba, DC Water; Charles Sinclair, Garney Construction, Christine deBarbadillo, Black and Veatch

Most utilities consider commissioning to be the tail end of a construction project to confirm that the built project meets specifications. There is also a perception that project delivery methods impact commissioning. This workshop will show that the commissioning challenges are agnostic of selected project delivery method and so are the approaches to overcome these challenges. This workshop will also highlight that the activities leading to successful commissioning start early in the decision phase, goes beyond construction, and is focused on the goal of ensuring that the constructed assets last and meet the design intent through its intended life span.
Pre-conference Workshops
Additional fees apply

Workshop C: Resilience Continuum for Assessing and Improving a Utility's Resilience Positioning
Tuesday, February 13, 2024
8:30 a.m. - 12:00 p.m.

Speakers: Jason Carter, Arcadis; Prabha Kumar, Black and Veatch; Joone Lopez, Moulton Niguel Water District, CA; Matthew Griffith, Louisville Water Company, KY; Brett Taylor, Wilmington, DE; Marissa Huntley, Sammamish Plateau Water, WA

Enterprise resiliency has long been recognized as a core attribute of effectively managed utilities. Recent unprecedented challenges have forced utilities to adapt fundamental business practices and policies rapidly in order to deliver services. In 2021, a team from AWWA's Strategic Management Practices Committee (SMPC) published an article on utility resilience based on their evaluation of AWWA’s pandemic survey data and a focus group discussion held with three utility leaders. This led SMPC authors to define the concept of a "Resilience Continuum". This workshop will build on this concept and resilience self-assessment to examine three focus areas with participants - Workforce Adaptation, Customer Engagement, and Digital Enablement.

Workshop D: Operationalizing Equity, Environmental Justice, and Resilience in your Utility with Advanced Asset Management
Tuesday, February 13, 2024
8:30 a.m. - 12:00 p.m.

Speakers: Hugh Sinclair, Arcadis; Satish Tripathi, City of Houston; Alan Sauvageau, WSSC Water

Water equity and environmental justice are now shifting from aspirational goals to required strategic objectives for many utilities. At the same time, the traditional problem of aging infrastructure is compounded by need for higher system resilience to combat the climate effects. To navigate these new challenges utilities are employing emerging best practices and technology to inform optimized asset management strategies. In this workshop participants will learn best practices of how to incorporate equity and environmental justice into its infrastructure prioritization and level of service performance while also exploring strategies to increase asset resilience to climate effects.
Pre-conference Workshops

Additional fees apply

**Workshop E: Wateropolis - A Facilitated Workshop for Values-Based Resource Prioritization**

**Tuesday, February 13, 2024**

1:30 p.m. - 5:00 p.m.

**Speakers:** Catherine Carter, Jennifer Teal, Raftelis; Jim Horne, US EPA; James Ginley, Jim Ginley Consulting, LLC

Wateropolis is an interactive board game designed to provide utility organizations with a new tool to engage internal and external stakeholders, help enhance community understanding and support, and demonstrate the value of water. This facilitated workshop leverages the industry's updated Effective Utility Management initiative and leads participants through the myriad of emerging issues and choices that confront local utility service providers, using Wateropolis, a highly-interactive experience that is modeled closely on the very successful North Carolina School of Government's "Budgetopolis" game.

**Workshop F: Using Gap Assessments to Advance Your Asset Management Program Maturity**

**Tuesday, February 13, 2024**

1:30 p.m. - 5:00 p.m.

**Speakers:** Tammy Whipple, AMCL, Mert Muftugil; Rebecca Borker, WSP Parsons Brinkerhoff; Todd Shepherd

This workshop is designed for utilities seeking to advance in their asset management maturity. It will provide an overview of asset management maturity assessment tools and uses, feature speakers from two utilities who will share real-world examples of evaluating their asset management program maturity and utilizing the assessment to develop actionable strategies to advance. An asset management self-assessment and tabletop exercises will be utilized throughout the workshop to provide attendees with practical, ready-to-use ideas and practices they can take back to their organization to advance their asset management practices and outcomes from any state of maturity.
Opening General Session
Wednesday, February 14, 2024
8:30 a.m. - 10:00 p.m.

More information about the opening general session is coming soon.

10:00 a.m.  Session adjourns for networking break
Session 01: Building Resilient and Sustainable Water Infrastructure in Jackson, MS - Insights from the Project Team

Wednesday, February 14, 2024
10:30 a.m. - 12:00 p.m.

Speakers: Ameerah Palacios, Brent Tippey, HDR; Edward Henifin, JXN Water

You've seen the headlines, now hear from the project team of JXN Water, Ted Henifin, interim third-party manager will speak on lessons learned and introduce key parts of his project team from Jacobs, Stantec, and HDR to speak on the progress of the system in its recovery. This panel will explore the critical intersection of resiliency and sustainability in water infrastructure development and management. Through a multi-disciplinary lens, the panelists will provide valuable insights and practical approaches for the AEC industry to understand the challenges in Jackson, MS. The ‘Building Resilient and Sustainable Water Infrastructure’ panel is designed to provide a comprehensive and actionable overview of the crucial issues surrounding water infrastructure today. It brings together experts from the JXN Water project team to share their knowledge, experiences, and best practices. Attendees will leave with a deeper understanding of the complexities of water infrastructure, as well as practical tools and strategies to address the challenges of an ever-changing world.

A full agenda for this session is coming soon!

12:00 p.m. Session adjourns for networking luncheon
Session 02: Utility Collaboration & Regionalization A
Wednesday, February 14, 2024
10:30 a.m. - 12:00 p.m.

Moderator: Heidi Hackett, Cape Fear Public Utility Authority

10:30 a.m.  From Burden to Benefit, ALCOSAN’s Regionalization Program Then and Now
  Kaye Bealer, AECOM; Julia Spicher, Alcosan

11:00 a.m.  Doubled Overnight: Consolidating Seven Utilities into One
  Jack Beers, CDM Smith; Jacob Tittle, Metropolitan Sewer Sub District

11:30 a.m.  When Less is More: A Wastewater Treatment Consolidation Case Study
  Kendall Ryan, Bailey Keller, David Munn, Freese and Nichols; Jared Barber;
  Lindsey Reid, Freese and Nichols; Richard Weatherly; Jameson Appel, City of Pearland

12:00 p.m.  Session adjourns for networking luncheon

  Ernie Buo, Leslie Long, Clark County Water Reclamation District

Alternate  Regionalization – The Role of Finances in Successful Solutions
  Ryan Graf, Miranda Kleven, Advanced Engineering and Environmental Services Inc
Session 03: Strategic Planning A  
Wednesday, February 14, 2024  
10:30 a.m. - 12:00 p.m.

Moderator: Sharon Peters, EMA, Inc.

10:30 a.m. Preparing for All Potential Outcomes: How HRSD Used Innovative Scenario Planning to Future-Proof its Organizational Strategic Plan  
Jay Bernas, HRSD; Ryan Nagel, Sarah Dominick, Shelbie Dashiell, Hazen and Sawyer

11:00 a.m. Future of Water and Wastewater Infrastructure and Policy in Sugar Land – A Story of Collaboration between Planning and Engineering  
Ishita Rahman, Freese & Nichols Inc.; Katie Clayton, City of Sugar Land; Kendall Ryan, Alexis Garcia, Freese & Nichols Inc.

11:30 a.m. Strategic Planning and Execution of a Unified SCADA System for Water Utility Management  
Leo Rodgers, Brown and Caldwell; Devin Sanders, Portland Water Bureau

12:00 p.m. Session adjourns for networking luncheon

Alternate Setting Expectations: Providing Flexible Project Guidance to Align the Management of Projects Across an Organization  
Sree Kolapalli, Loudoun Water; Michael Dalton, Hazen and Sawyer; Thomas Lipinski, Loudoun Water; Ryan Nagel, Conor Brennan, Hazen and Sawyer
Session 04: Understanding the "Why" Behind Utility Technology Transformations: The Behind the Scenes View of What Drives the Need for Change

Wednesday, February 14, 2024
10:30 a.m. - 12:00 p.m.

Speakers: Seth Johnstone, 1898 & Co.; Lee Haller, Matthew Jacob, Pittsburgh Water & Sewer Authority; Jeanetta Williams, Prince William County Service Authority; Michael Beardslee, Craig Lees, Loudoun Water

This session will include presentations from three leading utilities on 'why' they undertook a strategic technology initiative at their organization. The focus of these presentations will be on the organizational drivers that made the project necessary, what approaches were used to build buy-in to taking on the project, and lessons learned leading up to the actual procurement and deployment of the technology initiative. Following the presentations, there will be a moderated panel discussion providing the audience a chance to ask the utility leaders additional questions about each of these initiatives and the utilities overarching strategies around technology use.

A full agenda for this session is coming soon!

12:00 p.m. Session adjourns for networking luncheon
Session 05: Workforce Development: A Focus on Operators  
Wednesday, February 14, 2024  
1:30 p.m. - 3:00 p.m.

Moderator: Rhonda Harris, Workforce Research Solutions

1:30 p.m. Wastewater Operator Apprenticeship Program  
Tim Runde, City of Des Moines Metro WRA-WRF

2:00 p.m. Attracting Operators to the Field  
Olga Mikhalchishina, Bradley Hayes, Woodard and Curran

2:30 p.m. Analyzing Operators’ Jobs: A data driven approach to certifying operators and how it impacts the future of the water industry  
Paul Bishop, Water Professionals International (WPI); Alan Cranford; Mike Gosselin, City of Kelowna

3:00 p.m. Session adjourns for networking break

Alternate Stay Interviews: A Mechanism for Improving Employee Retention  
Kacie Allard, South Platte Water Renewal Partners

Alternate Purpose Driven Work: Utilizing the motivation behind the new workforce to build a successful internship program  
Zeena Williss Kohr, Anna Schroeder, South Platte Renewal
Session 06: Asset Management and Capital Program Frameworks  
Wednesday, February 14, 2024  
1:30 p.m. - 3:00 p.m.

**Moderator:** Prabha Kumar, Black & Veatch

**1:30 p.m.** Charlotte Water's Systematic and Comprehensive Sewer Maintenance and Rehabilitation Program Leads to a 75% Reduction in SSOs over the last 15 Years  
*Aaron Frazier, CHA Consulting, Inc.; Jason Bromirski, Charlotte Water*

**2:00 p.m.** So, You Think You Can Inspect? The Saga of City-Wide Inspections in the Nation’s Capital  
*Kaylin Kramer, Pono Hanson, Brown and Caldwell; Tatiana Baranova; Jessica Shiao, DC Water*

**2:30 p.m.** Evansville Water and Sewer Utility's Roadmap to Asset Management Excellence  
*Sara Ferrara, Arcadis; Logan Guffey, Evansville Water and Sewer Authority*

**3:00 p.m.** Session adjourns for networking break

**Alternate** Raise Your Standards: The Value of ISO 55000 in the Water & Wastewater Industry  
*John Helwig, CDM Smith; Tacoma Zach, MentorAPM; Jim Dieter, aim4ams*

**Alternate** Rapid Population Growth Drives Evolutionary Changes to Large Scale Multi-Billion Dollar Water/Wastewater Capital Improvement Program  
*Tom Davies, Kelly Davis, Trinity River Authority*
Utilities are a constant in our industry. Our organizations are essential to providing safe drinking water to our communities and are critical to public health. It is fitting that we are in the water industry because whether we like it or not things are constantly changing. As water erodes and shapes, our policies and ever-changing environment continues to shape how our utilities operate and change how things flow. Whether it's upcoming or new regulations, staffing shortages, or operating procedures, these all affect how our utilities operate and adapt to the times. This panel will address three main topics from planning for, managing, and tracking progress related to change. We will hear stories from three large utilities across the nation on how they have planned for, received, and adapted to change across their organizations. To close out this session we will provide a tabletop exercise to break out groups and have group discussion on how they would approach the specific challenge presented. Attendees will walk away with an understanding of change management principles and a real-life view on how that has been experienced, tracked, and implemented at utilities across the nation.

A full agenda for this session is coming soon!

3:00 p.m. Session adjourns for networking break
Session 08: Digital Transformation in the Water Sector
Wednesday, February 14, 2024
1:30 p.m. - 3:00 p.m.

Moderator: Getachew Melsew, DC Water

1:30 p.m. From a Ripple to a Wave: Global Best Practices for Digital Water Transformation
Eric Bindler, Bluefield Research; Shawn Ingram, Xylem

2:00 p.m. Preparing for and Implementing Process Optimization Using Advanced Data Visualization
Kelly Kimball, Erin Mackey, Brown and Caldwell; Kimberly Gupta, Portland Water Bureau

2:30 p.m. A Decade of Domain Expert-Led Digital Transformation in Houston Water: The Integration of ChatGPT and AI Technologies
Fazle Rabbi, Pratistha Pradhan, City of Houston

3:00 p.m. Session adjourns for networking break

Alternate Getting Comfortable Being Uncomfortable: The MMSD Digital Transformation Journey
Alan Tucker, Brown and Caldwell; Matt Magruder, Michael Martin, Milwaukee Metropolitan Sewerage District
Session 09: Workforce Development: Managing this Crucial Asset
Wednesday, February 14, 2024
3:30 p.m. - 5:00 p.m.

Moderator: Matt Gregg, Brown and Caldwell

3:30 p.m. One Plus One Equals A Common Goal: Discussions and Perspectives on Workforce Development From Two Sides of the Workforce
Kathleen Mannion, Carollo Engineers; Molly Nause-McCord, City of Portland, Bureau of Environmental Services

4:00 p.m. Tapping the Talent Pipeline: Developing the Next Generation of Leaders in Your Organization
Jennifer Teal, Raftelis; Zach McNutt, Kacey Waggaman, City of Monroe; Chrissy Roe, Louisville Water

4:30 p.m. Utility Leadership - Career Progressions for Recruitment & Retention
Jose Leon Jr, Raul Romero, Johnson County Wastewater

5:00 p.m. Session adjourns for networking reception

Alternate Preparing the Future Water Workforce
Stephen Brown, Town of Cary; Tasneem Hussam

Alternate Deep Diving into the Water Sector Workforce – Round Two!
Joanna Brunner, Arcadis; Zakiya Seymour; Kristan VandenHeuvel, The Water Tower; Joanna Brunner, Trisha Brown, Jayden Wright, Arcadis; Melissa Meeker, Gwinnett County - Department of Water Resources
Session 10: Best Practices for Capital Program and Asset Management
Wednesday, February 14, 2024
3:30 p.m. - 5:00 p.m.

Moderator: Aditya Ramamurthy, Kennedy/Jenks

3:30 p.m. Developing a Strategic Asset Management Plan (SAMP) for South Platte Renew
Shannon Harney, Angela Hager, South Platte Renew; Steve Simon, Hazen and Sawyer

4:00 p.m. Using Digital Technologies in Capital Planning: Parker Water & Sanitation District’s Water Supply Capital Planning process
Andrew Goldberg, Brown and Caldwell; Emilie Abbott, Parker Water and Sanitation District

4:30 p.m. Making the Right Choices for Your Utility: Using Augmented Alternatives Analysis (AAA) to Plan for Large Capital Investments
J Leslie Corcelli, US Environmental Protection Agency; Andrew Kricun

5:00 p.m. Session adjourns for networking reception

Alternate Checking Boxes and Moving the Needle – Incrementally Advancing Asset Management Program Value for Utilities
Alden Wyma, Donna Lund, Todd Smith, Adam Comfort, King County Dept of Natural Resources and Parks; Steven Rogowski, Metro Wastewater Reclamation District; Rachel King, Michael Flores, HDR

Alternate Equitable Investments: DC Water’s Experience Diving Deeper from an Analysis of Spending per Neighborhood to a Rigorous Approach to Enhancing Intergenerational Equitable Outcomes and Customer Experiences
Jennifer Belknap, Carollo Engineers; Getachew Melsew, DC Water
Session 11: Financial Resilience for Utilities and Customers Alike
Wednesday, February 14, 2024
3:30 p.m. - 5:00 p.m.

Moderator: Robert Ryall, Arcadis

3:30 p.m. Pure Water Antelope Valley – A Critical Water Supply Project for a Large Disadvantaged Community
Kim Pugel, Stantec; Dennis Hoffmeyer, Palmdale Water District

4:00 p.m. Climate Change in the Drinking Water and Wastewater Sectors and the Impact on Financial Resilience, Insurability, and Credit and Investment Quality
Aliza Furneaux, Environmental Protection Agency; Curt Baranowski

4:30 p.m. Inflation Reduction Act: Direct Pay Tax Incentives and Grants for Qualifying Utility Projects
Doug Baldessari, Baker Tilly Municipal Advisors

5:00 p.m. Session adjourns for networking reception

Alternate Managing Support Services Cost is Not an After Thought but and Integral Best Practice in Clayton’s Utility Financial Resilience
Rich Cappola, Robert McKie, Town of Clayton; Rupa Jha, Black and Veatch
Session 12: Water Research Foundation Project 5189 - AI/ML Framework for Water and Wastewater Utilities
Wednesday, February 14, 2024
3:30 p.m. - 5:00 p.m.

Speakers: Prabhushankar Chandrasekeran, Arcadis; Salil Kharkar, DC Water; John Norton, Jr, Great Lakes Water Authority; Mark Thomas, Denver Water; Javad Roostaei, Hazen and Sawyer

Many water utilities struggle with the assessment, planning, and implementation of data analytics projects especially those involving Artificial Intelligence (AI) and Machine Learning (ML) products and solutions. Since AI/ML technologies offer solutions to all business functions of the water utility - operations, maintenance, financial management, customer experience, engineering, and planning - it becomes imperative for water utilities to chart a pathway for adopting AI/ML products and solutions to create better outcomes. While there is a clear understanding of the challenges with adopting AI/ML products and solutions, there is currently no resource for water utilities to effectively assess the relevance of AI/ML initiatives, their readiness and gaps with implementing AI/ML technologies, and developing a pathway for phased implementation of these technologies. The Water Research Foundation (WRF) created this project (WRF 5189) to help address these concerns and to provide quantifiable results and real case studies that will help utilities evaluate AI/ML techniques and determine what tools are the best fit for their organization. This interactive session is designed to explore the transformative potential of advanced analytics, data-driven modeling, and application of machine learning technologies in the water industry, with a focus on education using practical case studies.

A full agenda for this session is coming soon!

5:00 p.m. Session adjourns for networking reception
Session 13: Incorporating Equity into Utility Decision Making
Thursday, February 15, 2024
8:30 a.m. - 10:00 a.m.

**Moderator:**  Ann Casey, Carollo Engineers

**8:30 a.m.** How Do You Say 'Aquifer' in Spanish? How Incremental Changes Result in Meaningful Advancement of Diversity, Equity, Inclusion, and Belonging (DEIB) through the City of Boise's Recycled Water Program
  Haley Falconer, City of Boise Public Works Department; Tiffany Torres, Andrea Hall, Brown and Caldwell

**9:00 a.m.** A Journey that Navigated Houseless Encampments Empathetically, Provided Core Services, and Prioritized Staff Safety & Wellness
  William Owen, Aster Moulton, Randy Lyons, Multnomah County Drainage District

**9:30 a.m.** A Repeatable and Clear Methodology for Utilities to Evaluate and Resolve Potential Inequities in Your Capital Improvement Program
  Jennifer Belknap, Carollo Engineers; William Elledge, DC Water

**10:00 a.m.** Session adjourns for networking break

**Alternate Economics of Equity in Infrastructure Decisions**
  Chris Behr, HDR
Session 14: Innovating the Consumer Experience
Thursday, February 15, 2024
8:30 a.m. - 10:00 a.m.

Speakers: Catherine Carter, Melissa Elliott, Raftelis; Jacqueline Jarrell, Charlotte Water; Julie Mechling, Pittsburgh Water; Krystina Bryant, City of Baltimore Department of Public Works

In an era marked by rapid technological advancements, the water and wastewater industry is poised for significant changes that reach far beyond the pipes and treatment plants. As customer expectations evolve, utilities must innovate to enhance the consumer experience. This session will delve into the multifaceted aspects of innovating the consumer experience at water and wastewater utilities, focusing on changing expectations, utility oversight and policies, optimizing the customer journey, and the role for technology and automation in the future of customer service. The session will incorporate short special topics presentations, panel discussions with opportunities for audience participation, and visual facilitation, with the overarching theme of defining and delivering a great customer experience.

A full agenda for this session is coming soon!

10:00 a.m. Session adjourns for networking break
Session 15: Optimizing Business Practices  
Thursday, February 15, 2024  
8:30 a.m. - 10:00 a.m.

Moderator: Jhoanna Murphy, City of Tulsa

8:30 a.m.  Finance, Procurement, Contracts and the PMO, Can It Be Love? How We Have Worked across Barriers to Thrive Together  
Shannon Spence, Lyle Beefelt, Prince William County Service Authority

9:00 a.m.  How to Maximize the Generational Infrastructure Funding by Innovating Procurement Practices to Align with Asset Management and Sustainability Goals  
Randy Moore, Tnemec Company, Inc.; TJ Stroebl, Kurita America Inc.

9:30 a.m.  Warehouse Best Practices - Dealing with Limited Storage and Supply Chain Issues in a Post-COVID Environment  
James Decker, Hazen and Sawyer; Zonetta English, Rene' Lindsey, Louisville & Jefferson County MSD

10:00 a.m.  Session adjourns for networking break

Alternate  Capital Delivery Optimization and Best Practices  
Brandon Vatter, Raftelis Financial Consultants; Rich McGillis, Blue Cypress Consulting LLC; Donnie Couch, Sanitation District No 1

Alternate  Evolution of a Water Utility: Holding On to G.S.D. to Steward and Trusted Provider  
Frank Sidari, Pittsburgh Water and Sewer Authority
Session 16: Management and Oversight of New Frontiers in Artificial Intelligence
Thursday, February 15, 2024
8:30 a.m. - 10:00 a.m.

Moderator: Christine Boyle, Burnt Island Ventures

8:30 a.m.  Laws and Ethics of Using AI in Utility Operations and Management
James Cooper, Arcadis

9:00 a.m.  A Board Level Guide to Risks and Opportunities of AI in the Water Sector
Nandita Ahuja, Ben Stanford, Katya Bilyk, Javad Roostaei, Hazen and Sawyer

9:30 a.m.  Sustainability Bias in Utility and Infrastructure Related ChatGPT Queries
William Kuehne, Lauren Basler, Ardurra

10:00 a.m. Session adjourns for networking break

Alternate Ready or Not, Artificial Intelligence Is Here!
Sasa Tomic, HDR; Gigi Karmous-Edwards; Paul Fleming, WaterValue

Alternate Predictive Modeling for Water Main Likelihood of Failure: Integrating
Machine Learning Techniques and Experts Insights with Utility Data - A
Case Study of Virginia Beach
Javad Roostaei, Paul Wilson, Malia Turner, Hazen and Sawyer; Steven Cook,
Virginia Beach Public Utilities; Donald Piron, Virginia Beach Public Utilities; Katya
Bilyk, Reid Cagir, Zachary Perkins, Hazen and Sawyer
Session 17: Utility Resilience and Reliability  
Thursday, February 15, 2024  
10:30 a.m. - 12:00 p.m.

Moderator:  Paul Suto, City of Portland BES

10:30 a.m.  Empowering People for Sustainable Utility Resilience  
Jason Carter, Arcadis; Joone Lopez; Matt Collings, Drew Atwater, Rod Woods, Moulton Niguel Water District

11:00 a.m.  The Importance of Cyber Resiliency in the Modern Utility: the Metropolitan St. Louis Sewer District Journey  
Jonathon Sprague, HDR; Ginny Kienstra, Metropolitan St Louis Sewer District

11:30 a.m.  Drinking Water Utility-Level Understanding of Climate Change Effects to System Reliability  
Zia Lyle, Carnegie Mellon University

12:00 p.m.  Session adjourns for lunch on your own
Session 18: Innovation Amplified: Harnessing Collaboration and Communications for Breakthrough Solutions
Thursday, February 15, 2024
10:30 a.m. - 12:00 p.m.

Speakers:  Katelyn Skornia, Arcadis; Ryan Locicero, Clean Water Services; Mike Huot, Sacramento Area Sewer District and Regional San; Medha Paliwal, Orange County Water District; Jason Carter, Joanna Brunner, Arcadis

In this session, a panel of executive champions, innovation leaders, and communication professionals from different utilities will discuss innovation at their organizations and how they communicate the impact of innovation. Through a facilitated discussion, these leaders will share their stories on how they have built a culture of innovation, challenges they have experienced in maintaining engagement at different levels throughout the organization, and specific actions that have helped overcome these obstacles. The experiences shared in this session will demonstrate how using a combination of metrics and effective storytelling is needed to engage and encourage different audiences throughout their organization. By capturing a diverse set of perspectives and expertise from leadership, innovation, and communications, this session will equip other leaders to effectively align communications and performance measures with their strategic priorities for greater impact and influence in their organizations.

A full agenda for this session is coming soon!

12:00 p.m.  Session adjourns for lunch on your own
**Session 19: Utility Planning: Essential to Success**

**Thursday, February 15, 2024**

**10:30 a.m. - 12:00 p.m.**

**Moderator:** Jennifer Ivey, Carollo Engineers

**10:30 a.m.** If You Plan it, They Can Come. The City of Frisco’s Journey through Proactive Planning and Progressive Growth  
Jason Grimm, City of Frisco; Stephen Johnson, Mazen Kawasmi, Freese & Nichols Inc

**11:00 a.m.** Water Demand Forecasting Implementation: Best Practices for Improved Decision Making  
Jessica LeNoble, Kerr Wood Leidal; Colwyn Sunderland

**11:30 a.m.** The More You Know the Less You Realize You Do – Boise’s Journey in Understanding Reliability and Redundancy  
Matthew Gregg, Brown and Caldwell; Haley Falconer, City of Boise Public Works Department

**12:00 p.m.** Session adjourns for lunch on your own

**Alternate** Not a Master Plan: Creating an Ultimate Infrastructure Plan to Aid in Preparing for Tomorrow’s Growth  
Jennifer Suttles, Tai Yi Su, Gwinnett County - Department of Water Resources; Hatem El-Sayegh, Barge Design Solutions

**Alternate** Roadmap for Achieving Energy Neutrality: Planning and Funding Energy Resiliency Projects Without Compromising Water Quality  
Elizabeth Keddy, Hazen and Sawyer; Bryan Schmerber
Session 20: Combining Data and Asset Management for Improved Monitoring and Operations
Thursday, February 15, 2024
10:30 a.m. - 12:00 p.m.

Moderator: Maria DeChellis, Oracle

10:30 a.m. 10-years of Planning and Progress toward Newport’s (RI) Mission to Implement Proactive Asset Management Practices
Peter von Zweck, Jacobs; Robert Schultz, City of Newport; Edwin Rroworth, Jacobs

11:00 a.m. From Data Deluge to Dashboard Success: Pima County RWRD's Enterprise Dashboard Story
Grantley Pyke, Hazen and Sawyer; Jeff Prevatt, Belinda Gamboa-Felix, Rudy Daniels, Pima County Regional Wastewater Reclamation Department; Daniela Panfil, Hazen and Sawyer

11:30 a.m. Selection and Implementation of a Computerized Maintenance Management System (CMMS) for Polk County Utilities, Florida.
Sanjay Puranik, Black & Veatch; Charles Nichols, Polk County

12:00 p.m. Session adjourns for lunch on your own

Alternate Maximizing Value through the use of Actionable Leak Data Knowledge
Paul Gagliardo, Gagliacqua Consulting; Bruno Tume, Asterra

Alternate Employing a Visualization Tool to Implement a Robust and Sustainable Asset Management Program
Marta Ortiz, Albuquerque Bernalillo County Water Utility Authority; Marcela Sion, Dilip Kumar, Hazen and Sawyer
Session 21: Alternative Project Delivery and Procurement
Thursday, February 15, 2024
1:30 p.m. - 3:00 p.m.

Moderator: Brian Shell, WSP USA

1:30 p.m. Get What you Need and Show What You've Got: A Panel Discussion on Qualifications-Based Selection
Sarah Lothman, Kat Becchina, Burns & McDonnell; Allison Swisher, City of Joliet, IL; Rick Harris, City of Leesburg, FL; Thom Lipinski, Loudoun Water

2:00 p.m. Supply Chain Issues Impacting the Construction of Infrastructure Projects: A Decision-Making Tool for Alternative Product Selection
Velmarugan Subramanian, Atkins

2:30 p.m. Perspectives on Public Private Partnerships (P3): Expert Panel on Sustaining Water Operations using P3
Ryan Nordvik, Arup; Thomas Crowley; Rolf Ohlemutz, Table Rock Capital; Chandrasekar Venkatraman, Veolia

3:00 p.m. Session adjourns for networking break

Alternate Return on Investment - Does the Owner's Advisor Add Value to your Project?
Will Shull, HDR; Nicole Bartlett, Charlotte Water; John Shutak
Session 22: Communications and Public Engagement  
Thursday, February 15, 2024  
1:30 p.m. - 3:00 p.m.

Moderator: Fletcher Davis, Denver Water

1:30 p.m.  Launching a Service Line Replacement Program – Denver Water Lessons on Building in Equity and Reaching Audiences through Communications, Outreach & Education
   Stacy Chesney, Denver Water; Meg Trubee

2:00 p.m.  Keep Your Water Quality Data Close, and the Tap Water Critics Closer
   Jonathan Leung, Kaushal Parbhoo, Los Angeles DWP

2:30 p.m.  Best Practices in Utility Communications: Tips and Tricks from the Pros
   Monica Hoyt, Central Utah Water Conservancy District; Kelley Dearing Smith, Louisville Water Company; Mandy Cawby, WaterOne; Douglas Shackelford, Central Arkansas Water

3:00 p.m.  Session adjourns for networking break

Alternate  Strategic Messaging for More Effective Communications on Sanitary Sewer Overflows in the Chesapeake Bay Watershed
   Meghan Robinson, HDR; Edward Shea, Wiley and Wilson; George Heiner, Anne Arundel County DPW
Session 23: How Rockwood Water People's Utility District and the City of Portland Benefitted from WIFIA Financing for their Water Infrastructure Projects

Thursday, February 15, 2024
1:30 p.m. - 3:00 p.m.

Speakers: Dallas Shattuck, Karen Fligger, US EPA; Kari Duncan, Rockwood Water People's Utility District; Cecelia Huynh, Portland Water Bureau

The Water Infrastructure Finance and Innovation Act (WIFIA) program is a government bank operated by US EPA headquarters that provides supplemental, flexible, low-cost credit assistance to public and private borrowers for all types of wastewater, drinking water, and stormwater projects. The WIFIA program offers long-term loans that can be combined with State Revolving Fund assistance, municipal bonds, and federal and state grants to help communities deliver more critical water infrastructure projects for a lower cost with less impact on rate payers. In this session, we will begin by providing a brief overview of the WIFIA program, including eligibilities, benefits, and flexibilities of WIFIA financing. We will then conduct a panel discussion between US EPA and current WIFIA borrowers about their projects and the benefits of utilizing WIFIA financing for their water infrastructure investments.

3:00 p.m. Session adjourns for networking break
Session 24: Real World Applications of Artificial Intelligence
Thursday, February 15, 2024
1:30 p.m. - 3:00 p.m.

**Moderator:** Travis Wagner, Trinnex

**1:30 p.m.**  
**DC Water’s Journey to ChatGPT**  
Robert Bornhofen, DC Water

**2:00 p.m.**  
**Flowing Forward: Revolutionizing Water Utilities with AI**  
Tim D'Agostino, P.W. Grosser Consulting

**2:30 p.m.**  
**Tucson Water LCRR Inventory Development, Powered by Artificial Intelligence**  
Eric Packer, Erin Lansey, HDR

**3:00 p.m.**  
**Session adjourns for networking break**

**Alternate**  
Satish Tripathi, City of Houston; Akshaya Niraula, Bentley

**Alternate**  
**Using Artificial Intelligence to Optimize Sewer Preventative Maintenance**  
Sara Titus, WSSC Water

**Alternate**  
**The Amazing AI Race: Pit Stops, Detours, and Green Flags**  
Kelly Alexander, Alexander Palmatier, HDR; Eric Sullivan, Tim McGarry, SewerAI
Session 25: Diversity, Equity, and Inclusion from a Water Utility's Perspective
Thursday, February 15, 2024
3:30 p.m. - 5:00 p.m.

Moderator:  Shawn Heselton, HRSD

3:30 p.m.  Being Intentional with Diversity, Equity, Inclusion, and Environmental Justice
Rosanna La Plante, Eric Mcfarland, Kishia Powell, WSSC Water

4:00 p.m.  Beyond the Commitment: Embedding Diversity, Equity, and Inclusion within Public Utilities
Lydia Hartman, Constance Haqq, Northeast Ohio Regional Sewer District

4:30 p.m.  DEI - It Can Be A 'Dirty Word'
C. Tad Bohannon, Central Arkansas Water

5:00 p.m.  Session adjourns

Katie Deheer, Carolyn Christy, Trinnex
Session 26: The Business Case for Water Affordability: A Quantitative Approach
Thursday, February 15, 2024
3:30 p.m. - 5:00 p.m.

Speakers: Lawrence Levine, Natural Resources Defense Council; Roger Colton, Fischer, Sheehan & Colton, Public Finance and General Economics; Tony Searls, Greater Cincinnati Water Works

To help provide safe and affordable water and sanitation to everyone in their communities, some utilities are turning to various forms of low-income customer discounts. But utility managers and others often have questions about the financial impacts that such programs will have on a utility. Experience in the energy utility sector and emerging data in the water and wastewater utility sector show that, by improving customers' complete, timely, regular, unprompted payment of bills, a low-income discount program can benefit a utility financially, significantly offsetting (or even exceeding) the costs of such a program. Even though a portion of low-income customers' bills are discounted, payments can increase such that total cash collections may go up, while the costs of collecting that revenue go down. Put another way, utilities can make a "business case" for offering a low-income discount program, by considering the program as a collection device designed to improve overall revenue and strengthen the utility's financial position.

This session will present a new downloadable Excel-based tool, which water and wastewater utilities can use to assess their own business case for adopting a low-income discount program. This 'Water Affordability Business Case Tool' was developed by a nationally-recognized expert on water affordability and affordable utility rates, who will be one of the presenters in this session. The session will demonstrate how utilities can use the Tool to assess the extent to which a rate-funded affordability initiative can be justified as a collection device designed to improve overall revenue and strengthen the utility's financial position; or, in the alternative, the extent to which external financial support might be needed to generate the desired outcomes within internal resource constraints.

A full agenda for this session is coming soon!

5:00 p.m. Session adjourns
Session 27: Utility Financing - A Multi-Faceted and Long Term Effort
Thursday, February 15, 2024
3:30 p.m. - 5:00 p.m.

Moderator: Ann Hajnosz, Sharon & Associates

3:30 p.m. An Uphill Battle: A NC Case Study of Utility Cost Recovery and Customer Affordability
Olivia August, Hazen and Sawyer; Martin Doyle, Duke University

4:00 p.m. Puget Sound Wastewater Service Affordability Analysis: Potential Impacts of Implementing the Nutrient General Permit
Susan Burke, Stantec; Aimee Kinney, UW Puget Sound Institute

4:30 p.m. What got us here won’t get us there: Building Alignment around a (One) Water Resiliency Strategy to Prioritize, Fund, and Communicate Capital Project Needs
Holly Tichenor, Brown and Caldwell; Frank Dick, City of Vancouver, WA Public Works; Rachel Garrett

5:00 p.m. Session adjourns

Alternate Strength Based Billing: An Updated Cost Allocation and Billing Framework for San Diego’s Metro Wastewater System
Benjamin Stewart, Stantec; Adam Jones, City of San Diego, Public Utilities Department; William Zieburtz, Burton & Associates
Session 28: Applications of Data Management and Analysis
Thursday, February 15, 2024
3:30 p.m. - 5:00 p.m.

**Moderator:** Brett Anderson, City of Minneapolis

3:30 p.m. **Using Data Analysis to Improve Household Water Conservation: One Utility’s Journey**
Glenn Barnes, Water Finance Assistance

4:00 p.m. **Getting Ahead of Innovation by Taking a Step Back: Data Management Planning at Cape Fear Public Utilities Authority**
Elizabeth Severt, Chris Bolton, Cape Fear Public Utility Authority; Timothy Devine, Malia Turner, Ben Stanford, Hazen and Sawyer

4:30 p.m. **Leveraging the Dataverse to Enable Living Data Management from Design to Operations**
Kirk Olds, Brown and Caldwell; Devin Sanders, Portland Water Bureau; Riley Middlebrook, Brown and Caldwell; Dale Johnson, Marquam

5:00 p.m. **Session adjourns**

**Alternate**

A Practical Sewer Network Digital Twin - It is not a PIPE dream
Varun Srinivasan, Jonathan Nelson, Steven Drangsholt, Carolyn Christy, Trinnex

**Alternate**

Robert Maloney, WSSC Water
Session 29: Change Management: Considering Culture, Workforce, Business Processes, and Technology

Friday, February 16, 2024
8:30 a.m. - 10:00 a.m.

Speakers: Mia Sabanovic, City of Portland Bureau of Environmental Service; Marco Merrick, Baltimore City Department of Public Works; Nohemy Revilla, San Francisco Public Utilities Commission; Jessica Maloney, MWR Denver; Rosa Castro, MWD So. Cal.; Vanessa Dyson, Andrew Pearce, UK Environment Agency

This session will include two parts:

1. Testimonials/case studies from staff and management in public water sector utilities who applied a framework based on value gained and an easy approach built on systems thinking to address different organizational challenges and design and implement improvements. Presentations will demonstrate how products from completed WRF projects (Vitasovic et. al., 2022, Lehman et al. 2022) have been used by utilities to add value and improve specific aspects of performance including: a) a value-based framework that considers People, Processes, and Technology, b) maturity models and assessment tools for each of these elements; and c) a continuous improvement methodology including Change Management.

2. Facilitated interactive panel discussion including interaction with the audience to address their questions and comments.

Session 30: Utility Collaboration & Regionalization B  
Friday, February 16, 2024  
8:30 a.m. - 10:00 a.m.

Moderator:  Rick Warner, Jacobs

8:30 a.m.  A Watershed Moment for Regionalization  
Kevin Gibson, Wesley Sydnor, Louisville & Jefferson County MSD

9:00 a.m.  Breaking Boundaries, Transforming Communities: The Stowe Regional Water Resource Recovery Facility - Pioneering a Collaborative Approach to Regional Wastewater Management  
David Saunders, HDR; Angela Charles, Charlotte Water

9:30 a.m.  Being Intentional About Collaboration and Regionalization to Overcome Paralysis and Put the People First  
C. Tad Bohannon, Central Arkansas Water; Aaron Benzing, Hawkins Weir Engineers Inc; Chelsea Boozer, Rogue Water Lab

10:00 a.m.  Session adjourns for networking break
Session 31: Integrated Water Management  
Friday, February 16, 2024  
8:30 a.m. - 10:00 a.m.

Moderator:  
Sarah Lothman, Burns & McDonnell

8:30 a.m.  
**Raleigh Water's Unified Vision: Mastering Integrated Planning**  
Nicola Hill, Adam Sharpe, HDR; Janeen Goodwin, Raleigh Water

9:00 a.m.  
**Integrated Urban Wet Weather Solutions Save Money and Provide More Benefits**  
Andrew Sauer, Burns & McDonnell; Andy Shively, Kansas City Water

9:30 a.m.  
**Using Meter Readings to Identify Conservation Opportunities: A Low-Cost, No-Code Digital Solution**  
Jonathan Hoechst, Tetra Tech

10:00 a.m.  
Session adjourns for networking break

Alternate  
**Ground Water and Surface Water Pricing Strategies**  
Isalah Barnes, Carollo; Summer Hvasta, San Jacinto River Authority
Session 32: Optimization of Operation & Maintenance  
Friday, February 16, 2024  
8:30 a.m. - 10:00 a.m.

**Moderator:** Brittany Dowling, City of Portland Bureau of Environmental Services

**8:30 a.m.** More RATs, Less Problems: Acoustic Inspection as a Smart Water Solution in Bend, Oregon  
Alex Churchill, InfoSense Inc

**9:00 a.m.** Asset Management, Machine Learning, & Connected Devices: Optimizing Collection System O&M  
Jacob Mueller, HDR

**9:30 a.m.** Charlotte Water’s Use of a Risk Management Tool to Effectively Mitigate Sanitary Sewer Overflows  
Jason Bromirski, Charlotte Water; Glen Hill, Tim Schempp, SmartCover Systems

**10:00 a.m.** Session adjourns for networking break
Session 33: Decision Making with the Customer in Mind
Friday, February 16, 2024
10:30 a.m. - 12:00 p.m.

Moderator: Terry Fairchild, Cole Fairchild Consulting

10:30 a.m. Solutions to Construction Challenges for an Equitable and Incentivized Lead Service Line Replacement Program
Jennifer Lachmayr, Arcadis; Joseph Lanzafame, City of New London

11:00 a.m. AMI: Leveraging the Power of Data
Nicole Bates, Mount Pleasant Waterworks

11:30 a.m. More than Metrics: Northeast Ohio Regional Sewer District's Path for Customer Affordability Programs
Carol Malesky, Stantec; Constance Haqq, Northeast Ohio Regional Sewer District

12:00 p.m. Conference adjourns

Alternate Effective Strategies for Building Consensus with a Rate Advisory Committee
Paul Matthews, Tualatin Valley Water District; Elizabeth Bakke, Barney & Worth Inc
Session 34: Engaging the Community in One Water Programming  
Friday, February 16, 2024  
10:30 a.m. - 12:00 p.m. 

Speakers: Amy Weinfurter, Victoria Arling, Becky Anderson, WaterNow Alliance  

Trusted relationships between water utilities and their communities are more important than ever to ensure delivery of equitable, affordable access to clean, reliable drinking water, wastewater, and stormwater services. Increasingly, water leaders are working to develop and strengthen relationships with community members. These efforts are especially important for utilities and water resource agencies looking to advance One Water programs, i.e., integrated and sustainable water resource management initiatives that involve decentralized infrastructure distributed across communities, such as green stormwater infrastructure, water use efficiency initiatives, drought-tolerant landscaping, water use monitoring and leak detection technologies, graywater reuse, and more. However, implementing One Water strategies requires an intentional engagement with community members of all kinds, and in particular those who are or have been disproportionately impacted by water challenges, such as neighborhood flooding, unaffordable rates, and/or face unique barriers to access to clean, safe water services. This panel presentation will feature case studies from communities across the county demonstrating how various types of community partnerships and outreach can support innovative One Water programming and ensure that implementation of these programs includes and benefits all of their community members.
