| Camp Applied Research                    | Recognizes a WEF member who demonstrates a unique application of basic research or fundamental principles through the design or development of a wastewater collection or treatment system. | I. Member of the Water Environment Federation.  
ii. Nominations must demonstrate a unique application of basic research or fundamental principles through the design or development of a wastewater collection or treatment system.  
iii. Nominations must include a complete project description. | Nominations accepted from:  
• IWEF Member Associations  
• IWEF Members  
• IWEF Committees | 1. One page biography of the nominee  
Specific reasons for nomination (one page maximum)  
2. Any other supporting material required under criteria or that you feel would be helpful in the selection process. | 4/1/2017 |
| Emerson Distinguished Service            | This award commemorates the service of the first president of the Federation, Charles Alvin Emerson, who served from 1928 to 1941, and was its first honorary member. This award is presented to an individual member of the Water Environment Federation whose contributions to the water environment profession most deserve recognition. | Criteria (contributions in either or both Criteria i and ii will be considered)  
1. Contributions to promoting and/or improving the standards of our industry through (as examples):  
a. Developing standards of practice  
b. Research  
c. Teaching/Training  
d. Publications/books/papers/presentations  
e. Professional accomplishments  
2. Contributions to supporting our profession through (as examples):  
a. Leadership in IWEF and/or Member Associations  
b. Leadership in developing conferences/workshops, etc.  
c. Membership recruitment  
ii. Member of Water Environment Federation | Nominations accepted from:  
• IWEF Member Associations  
• IWEF Members  
• IWEF Committees | 1. Nomination Form  
2. One page biography of nominee  
3. Specific reasons for nomination (three pages maximum, and should follow the above criteria)  
4. Any other supporting material required under criteria or that you feel would be helpful in the selection process | 4/1/2017 |
| Engelbrecht International Achievement     | The Engelbrecht International Achievement Award was named in memory of Richard S. Engelbrecht, who served as Federation President in 1977-1978. This award recognizes sustained and significant contributions to the furtherance and improvement of the activities of the Water Environment Federation in the international field. | i. Member of the Water Environment Federation (the award is not restricted to members outside North America)  
ii. Demonstrated sustained and ongoing contributions, over a period of not less than 5 years, towards the furtherance and improvement of the international activities of the Water Environment Federation.  
iii. Service should primarily reflect Federation activities outside North America. | Nominations accepted from:  
• IWEF Member Associations  
• IWEF Members  
• IWEF Committees | 1. Nomination Form  
2. One page biography of the nominee to include membership history and general details of their participation in committee and other Federation activities.  
3. Specific details concerning the nominee’s activities in the international field and the benefits derived or to be derived by WEF because of these activities. | 4/1/2017 |
| Honorary Membership                      | WEF Honorary membership recognizes individuals who have proven their preeminence in the fields of activity encompassed by Water Environment Federation objectives. Recipients of WEF Honorary membership are recognized for their achievements in the water profession and are awarded a complimentary lifetime WEF membership. | i. Acknowledged preeminence in one or more fields of activity within the scope of the WEF stated objectives.  
ii. A maximum of three Honorary Members can be elected in any calendar year. | Nominations accepted from:  
• IWEF Member Associations  
• IWEF Members  
• IWEF Committees | 1. Honorary Membership Nomination Form  
2. One-page biography of the nominee  
Specific reasons for nomination (one-page maximum) | 3/3/2017 |

| Outstanding Young Water Environment Professional | Presented for significant contributions to the Water Environment Federation and to the wastewater collection and treatment industry. | i. Member of the Water Environment Federation  
ii. 35 years old or younger at the time of nomination  
iii. Demonstrated contributions to enhancing the activities of the Water Environment Federation, contributions to WEF Member Associations and to WEF Committees and improvement in the fundamental knowledge of performance of wastewater collection and treatment systems, water resource protection and research on issues important to the water environment. | Nominations accepted from:  
- WEF Members  
- WEF Member Associations  
- WEF Committees | 1. Nomination Form  
2. One page biography of the nominee  
Specific reasons for nomination (one page maximum)  
3. Any other supporting material required under criteria or that you feel would be helpful in the selection process. | 4/1/2017 |
| Public Officials | The Public Officials Award is presented to an elected or appointed public official that has made a documented, significant contribution in the areas of clean water legislation, public policy, government service, or another area of public prominence that resulted in improvements to the water environment. The award can be presented for public service at the local, state, provincial or national level. | i. Nominees must be an elected or appointed office, and do not need to be a member of WEF  
ii. Significant contribution that resulted in improvements to the water environment. | Nominations accepted from:  
- WEF Members  
- WEF Member Associations  
- WEF Committees | 1. Nomination letter  
2. One-page biography of the nominee  
3. Listing of specific reasons for the nomination (two pages maximum) that relates to his/her work in improving the water environment, and any other supporting material that relates to the award criteria. | 4/1/2017 |
| W. Wesley Eckenfelder Medal for Outstanding Academic-Practitioner Collaboration | This award commemorates the service of Water Environment Federation Past-President Dr. Ralph E. Fuhrman, who was a master of collaboration among the academicians and practitioners. The Medal promotes and rewards extraordinary collaborative work by two or more people. | i. Members of the Water Environment Federation  
ii. Medal-worthy collaboration must have advanced the water quality profession by:  
A. increasing the knowledge base  
B. Demonstrating the application of innovative scientific concepts or innovative project implementation methods as part of water quality enhancement projects  
C. Enhancing the relationship between academia and clean water practitioners  
iii. The successful nomination will recognize a team comprised of:  
A. At least one academician (e.g. faculty representing research and/or non-research institutions)  
B. At least one practitioner (e.g. water quality professionals representing regulatory agencies, consultancies, not for profit organizations, equipment manufacturers, treatment plant/facility operators, and/or utilities). | Nominations accepted from:  
- WEF Members  
- WEF Member Associations  
- WEF Committees | 1. Nomination Form  
2. One page (maximum) description of the medal worthy effort (e.g., reason for nomination.  
3. One page (maximum) description of the team members responsible for the collaborative effort  
Supporting material that you feel would be helpful in communicating how the collaborative effort meets or exceeds the selection criteria. | 4/1/2017 |
| W. Wesley Eckenfelder Industrial Water Quality Lifetime Achievement | The W. Wesley Eckenfelder Industrial Water Quality Lifetime Achievement Award recognizes and honors an individual who has made substantial and measurable engineering, scientific, and/or operations contributions to the management or treatment of industrial wastes related to the improvement of water quality. | i. Member of the Water Environment Federation  
ii. A minimum of 25 years of significant technical contributions and impact on the body of engineering, scientific, and operational knowledge related to the treatment and/or disposal of industrial wastes  
iii. Significant contribution to the professional advancement of engineers, scientists, and/or other professionals in the area of industrial waste management. | Nominations accepted from:  
- WEF Members  
- WEF Member Associations  
- WEF Committees | 1. Nomination Form  
2. Resume of the nominee emphasizing career achievements  
3. Specific reasons for nomination (one page maximum)  
4. Any other supporting material required under the selection criteria or that would be helpful in the selection process. | 4/1/2017 |

| Water Heroes | The purpose of the Water Heroes program is to recognize individuals or municipalities who performed duties above and beyond the usual call of duty during an emergency to continue to protect the public and the environment. These duties shall elevate the status of the wastewater industry. | i. Open to members and non-members of the Water Environment Federation.  
ii. Nominations must demonstrate:  
   a. An emergency  
   b. Actions taken above and beyond the normal call of duty  
   c. Actions taken to continue to protect the public and the environment  
   d. Actions taken that elevated the status of the wastewater industry | Nominations accepted from:  
   • WEF Member Associations  
   • WEF Members | 1. Nomination Form  
2. One page biography of the individual nominee or description of the municipality nominee  
3. Specific reasons for nomination (one page maximum)

| WEF Canham Graduate Student Scholarship | This scholarship provides $25,000 for a post-baccalaureate student in the water environment field. The scholarship is for education related expenses such as room and board, tuition, and books. The scholarship may not be used to cover stipends or wages. | i. Member of the Water Environment Federation. | i. Member of the Water Environment Federation.  
ii. Completed application providing a summary of academic and practical experience in the environmental field.  
iii. Official college/university transcripts.  
iv. Letter of acceptance to a graduate program in the water environment field.  
v. Recommendations from three persons (at least one of these persons must be a member of the Water Environment Federation) who can attest to the applicant's academic and/or practical experience.  
vi. A detailed statement of degree objectives as related to applicant’s career goals and intent to work in the water environment field (750 words minimum; 1,000 words maximum). Statement must accompany the application.  
 vii. Recipients of the scholarship are expected to make a commitment to work in the water environment field for two years following completion of the degree. | Applications Accepted from:  
Post-baccalaureate students in the water environment field.  
Application forms must be completed and submitted along with three letters of reference. Recipient is responsible for taxes due on the award. | Please complete and mail or email both the application and recommendations to:  
Water Environment Federation Awards Program  
Attn: Kelsey Hurst

awards@wef.org or khurst@wef.org | 3/1/2017 |
| For Distinguished Engineering Educator | Recognizing accomplishments in the education and development of future engineers, this medal honors Gordon Maskew Fair, a professor of sanitary engineering at Harvard University, who achieved exceptional results in preparing students for the water environment profession. | i. Detailed Resume or CV documenting significant accomplishments in the education and development of future engineers.  
ii. Member of the Water Environment Federation. | Nominations accepted from:  
WEF Member Associations  
WEF Members  
WEF Committees | | 4/1/2017 |
| Media & Public Education | Recognizes accomplishments of the media, journalists, and others whose profession is outside of the water environment profession. This medal is in memory of Harry E. Schlenz, who served as Federation President in 1961-1962. Mr. Schlenz was a distinguished leader in promoting public understanding of the need for effective water quality. Through his efforts, a special award was presented by the Federation in 1967 to a writer for the Chicago Tribune for an outstanding series in that newspaper on water pollution control. | i. Documented achievements of an individual who actively and publicly promotes water environment public education.  
ii. Nominee’s principal employment must be outside of the water environment.  
iii. A nominee’s contribution should be in journalism, film or video production, or any other communication endeavor.  
iv. Cannot be a member of the Water Environment Federation. | Nominations accepted from:  
WEF Member Associations  
WEF Members  
WEF Committees | | 4/1/2017 |
| Public Communication and Outreach Program Awards | The WEF Public Communication & Outreach Program Awards recognize WEF members for significant accomplishments in promoting public awareness and the understanding of water environment issues through the development and implementation of outreach, education, and/or communication programs. WEF Member Associations, individual WEF members, and other organizations, including groups, events, and campaigns, are eligible for this award. | Categories:  
i. Individual  
ii. WEF Member Association  
iii. Other (organizations, groups of individuals, events, and campaigns) | Criteria: The criteria are the same for each category.  
i. Documented achievements of water environment outreach, public education, public communication programs and activities.  
ii. Identification and description of exceptional efforts to engage and educate the public on water environment issues.  
iii. A detailed narrative description of activities or efforts, including the objective and results.  
iv. At least one member of a nominated organization shall be a Member of the Water Environment Federation. | Nominations Accepted from:  
WEF Member Associations  
WEF Members  
WEF Committees | | 4/1/2017 |

<td><strong>Member Association Excellence</strong></td>
<td>The Member Association Awards are established to recognize outstanding Member Associations and Member Associations that excel in areas of membership retention, financial strength, new memberships, scholarship programs, student achievement and support, technology transfers, and/or award programs.</td>
<td>Nominations are considered in two categories: 1. Outstanding Member Association Award recognizes a WEF Member Association that demonstrates good performance in all areas listed below and exceptional performance in multiple areas. 2. Member Association Achievement Award recognizes a WEF Member Association that demonstrates superior achievement in one of the performance areas listed below. Nominations will be considered in three categories: 1. MA's with membership of less than 500 2. MA's with membership greater than 500 3. International MA's</td>
<td>i. Position of financial strength ii. Membership retention iii. New Membership iv. Scholarship Program v. Student Achievement and Support vi. Technology transfer vii. Awards program and participation</td>
<td>Nominations accepted from WEF Member Associations</td>
<td>1. Download Nomination Form 2. One page biography of the nominee 3. Specific reasons for nomination (two-page maximum) 4. Description of programs and achievements (as appendix)</td>
<td>4/1/2017</td>
</tr>
<tr>
<td><strong>Member Association Safety</strong></td>
<td>This award recognizes water treatment facility safety programs that stimulate safety awareness and practices and that encourage the collection of injury statistics on a national basis.</td>
<td>Nominations are accepted in three categories: 1. WEF Member Associations with membership of less than 400 2. WEF Member Associations with membership of 400 to 1,000 3. WEF Member Associations with membership of 1,000 or greater</td>
<td>i. Cooperation with other organizations to promote safety ii. Methods used to publicize the safety program iii. Safety materials and visual aids used iv. Collection and use of injury data v. Wastewater system personnel injury experience for the past 5 years in the area served by the Member Association vi. Applications of nomination must be supported by exhibits that document and illustrate the Member Association's safety program.</td>
<td>Nominations accepted from WEF Member Associations</td>

| Collection System                      | The Collection System Award is presented to an individual for contributions to the advancement of the state of the art wastewater collection. | N/A | i. Member of the Water Environment Federation.  
ii. Documentation and supporting information on the contribution.  
iii. The nominee's area of service must have been in any of the following areas: management, overall planning, operation and maintenance, facility design, education, training, or research.  
iv. Publication in a Federation periodical of a formal report is not required but is desirable. | N/A | 1. Download Nomination Form  
2. One page biography of the nominee  
3. Specific reasons for nomination (one page maximum)  
4. Any other supporting material required under criteria or that you feel would be helpful in the selection process. | 4/1/2017 |
| Industrial Water Quality Achievement    | The Industrial Water Quality Achievement Award is presented to a corporation and, if applicable, to its engineering firm that best demonstrates significant, lasting, and measurable excellence in water quality improvement or in the prevention of water quality degradation as demonstrated by innovative design and operation of an industrial wastewater, pretreatment, or source prevention program. | N/A | i. The program should be operated by an industry or show significant input by industry.  
ii. Joint awards between industrial and engineering consultants will be made for innovative designs or process alternations or management.  
iii. The program must lie within the boundaries of one or more Member Association(s) sponsoring the nomination.  
iv. A program is eligible during a five-year period immediately after documented results become a matter of public record. Two re-nominations may be made.  
v. The program must demonstrate a significant achievement in design, operation, or process change resulting in demonstrated long-term water quality improvement. The application should give significant detail as to the nature of the engineering or scientific advances leading to the improvement. Examples of criteria are one or more of the following:  
1. Detailed summary data showing significant reduction in classic macro pollutants, e.g. BOD, N, P, TS discharged to the receiving stream or municipal sewer.  
2. Detailed summary data showing significant reduction in micro pollutants, e.g. chlorinated hydrocarbons, pesticides, metals, or hazardous compounds to the receiving stream or municipal sewer.  
3. A method of source reduction by process alternation which demonstrates reduction of water used or water pollution.  
4. A method of source reduction by product alternation which demonstrates reduction of water used or water pollution.  
5. A method of materials recycling resulting in lower water use, or lower water pollution generation.  
7. Innovations resulting in the protection of groundwater, soil, or air from a new or existing industrial wastewater treatment facility.  
8. An environmental management strategy or training program that increases environmental awareness and results in significant source reduction or water pollution prevention. | N/A | 1. Download Nomination Form  
2. Letter of nomination originating from an officer of the Member Association or chair of the respective WEF Committee.  
3. Letter of acknowledgment of nomination from a responsible member of the potential award recipient.  
4. Body of Application:  
a. Problem statement and program goals  
b. Problem solution  
c. Unique scientific or engineering, or management skills embodied in the program  
d. Evidence of attainment of goals (at least one year of data)  
e. External references from a municipal, state or federal agency  
f. Summary of why the program is worthy of award. | 4/1/2017 |

<tr>
<td>Morgan Operational Excellence</td>
<td>The Morgan Operational Excellence Award is presented to an engineering consultant, municipal engineer, or industrial engineer who is professional engineer in responsible charge of the design of facilities for the conveyance, treatment, or disposal of wastewater and/or treatment residues. This award is presented to a WEF Exhibitor Member who have introduced new innovative products or services related to our industry. Details: A subcommittee of the Awards and Recognition Committee will select up to four (4) outstanding technologies and companies and recommend them for this award. The company must be a WEF Exhibitor Member to apply and the technology must be installed and in use for more than one year, but not more than five years. Any new technology used within the water industry may be submitted. Examples include: instrumentation, process equipment, collection systems, solids handling, stormwater treatment, water treatment, software, on-site systems, and heavy machinery. The winners are announced prior to WEFTEC and the award is presented during the WEFTEC Awards celebration.</td>

<td><strong>Water Quality Improvement</strong></td>
<td>The Water Quality Improvement Award is presented annually to the water quality improvement program that best demonstrates significant, lasting, and measurable excellence in water quality improvement or in prevention of water quality degradation in a region, basin, or water body.</td>
<td>N/A</td>
<td><strong>Detailed Criteria for the Water Quality Improvement Award</strong></td>
<td>Each Member Association may nominate one program each year. If more than one program within the boundaries of a Member Association is eligible for nomination, the Member Association shall make its own selection of the most suitable single entry for that year. Each entry shall be in the form of a notebook prepared by the sponsor that will be used to screen the total number of entries to three or fewer.</td>
<td>4/1/2017</td>
<td></td>
</tr>
<tr>
<td><strong>Criteria for Nomination</strong></td>
<td>1. The program must lie within the boundaries of one or more Member Associations sponsoring the nomination. 2. A program is eligible during a three-year period immediately after documented results become a matter of public record. Re-nomination is permitted at any time during this three-year period. 3. The entry must be submitted by a sponsor that is endorsed by the Member Association within whose boundary the head office of the sponsor is located. The sponsor should be the entity with the greatest and most direct responsibility for successful completion of the program.</td>
<td></td>
<td><strong>Examples of acceptable sponsors:</strong></td>
<td>a. The owner of the works that achieved the results meriting the programs nomination. b. Local, regional, state, or interstate agencies responsible for the creation, financing, implementation, and regulation of a program that involves numerous discrete projects with different owners.</td>
<td></td>
<td><strong>Examples of unacceptable sponsors:</strong></td>
</tr>
</tbody>
</table>
the program, focusing on water pollution control through either prevention or correction.

Items 6, 7, and 8 should be presented in not more than ten double-spaced pages of text, exclusive of graphics. Unusual expense in preparing the graphics of the submittal is not necessary. Items 1 through 8 will be used by the Awards Subcommittee to screen the entries to three or fewer finalists. Each finalist may be requested to submit six copies of the following supplemental information by May 15:

1. Five 8 X 10-inch-high quality black and white photographs of the program or project, including at least one aerial view.
2. A set of ten color slides illustrating the program and, to the extent possible, “before” and “after” water quality conditions. It is strongly suggested that all photographs and slides be prepared by a professional photographer.
3. A press release, up to two pages, double-spaced, describing the program and its results. The press release should be written to communicate with the public, not a professional audience.
4. The name of a representative of the sponsor who can be contacted for additional public relations information.

All entries, including photographs, will become the property of the Water Environment Federation, and will not be returned.

| WEF Project Excellence | WEF’s annual Project Excellence Award pays tribute to excellence and innovation in the execution of projects and programs in the water sector.                                                                 | i. Entries will be evaluated based on the following criteria:  
a. Complexity of the water sector problem or situation addressed  
b. Future value to the water sector  
c. Innovation, originality, and creativity in solutions  
d. Sustainability considerations (environmental, social, and economic) including resource recovery  
e. Meeting the owning agency's needs particularly related to budget, schedule, project quality and/or cost effectiveness  
f. Contribution to the well-being of people and communities  
ii. Up to three WEF Project Excellence Awards may be awarded annually. Up to three participating entities will be acknowledged and receive the awards (e.g., owning agency or utility, the lead design firm, and the construction entity).  
iii. Projects must be substantially complete at the time of the application. If portions of the project are not complete, only the completed portions of the project will be considered for that year's awards program. | N/A                                                                                                                                              | Nominations Accepted from: WEF Member Associations  
WEF Members  
WEF Committees | 4/1/2017 |
| WEF Safety      | The purpose of this award is to encourage active and effective safety programs in the water environment field, and to recognize entities that not only invest their resources to develop high quality safety programs and adopt them within their own culture, but also actively seek out opportunities to share these programs with others in the water industry for the benefit of all.  
This award is presented annually by WEF to an industry, municipality, organization, utility, or other entity engaged in the protection of the water environment to recognize the success of their efforts to promote safety and educate the water industry. | i. Documented safety program and materials.  
ii. Documented success in improving or maintaining a safe working environment.  
iii. Documented internal and external promotional programs.  
iv. Documented cooperative and/or outreach programs.  
v. Documented use of injury data.  
v. Other unique efforts demonstrated by the applicant related to promoting safety in the water environment field. | Nominations Accepted From: Member Associations  
WEF Members | • Nomination Form  
• Release Form certifying that the applicant is not currently under any review or active safety related litigation  
• One page description of the applicant's type of work/business or other relation to the water environment field.  
• One page narrative detailing the specific reasons for nomination.  
• Supporting exhibits that document and illustrate the applicant's safety efforts.  
• Any other supporting material required under the criteria, or that will help in the selection process. | 4/1/2017 |

| Collection Systems/Published Contributions | This award recognizes published contributions to the fundamental principles of wastewater collection and transport, as comprehensively described and published in WEF Conference Proceedings or a Federation periodical. | N/A | i. Must be written by a member of a Member Association (MA) to be eligible.  
ii. Articles published in WEF Conference Proceedings, a WEF periodical or MA publication during any stated calendar year are eligible for nomination.  
iii. Specific consideration is given to the relative value of the contribution and its potential for broad application to all aspects of collection systems.  
iv. The literary quality of the written presentation is also a standard of judgment used by the subcommittee for evaluation. | Nominations accepted from: Federation periodicals  
WEF Conference Proceedings  
Member Association publications | 1. Submit Nomination Form  
2. Specific reasons for nomination (one page maximum)  
3. Any other supporting material required under criteria or that you feel would be helpful in the selection process. | 4/1/2017 |
| Eddy Wastewater Principles/Processes | The Eddy Medal honors Harrison Prescott Eddy, a prominent engineer, and a pioneer in the field of wastewater treatment. The medal is awarded for research that makes a vital contribution to the existing knowledge of the fundamental principles or process of wastewater treatment, as comprehensively described and published in a federation periodical. | N/A | i. Member of a WEF Member Association.  
ii. Articles published in a Federation periodical during any stated calendar year are eligible for nomination. | Nominations accepted from: All articles published in a Federation periodical during any stated calendar year are eligible for nomination. | 1. Submit Nomination Form  
2. Specific reasons for nomination (one page maximum)  
3. Any other supporting material required under criteria or that you feel would be helpful in the selection process. | 4/1/2017 |
| Gascoigne Wastewater Treatment Plant Operation Improvement | The Gascoigne Medal was established in recognition of George Bradley Gascoigne, a prominent consultant who exhibited a great deal of interest in the operation of wastewater treatment plants. The medal is awarded to the author(s) of an article which presents the solution of an important and complicated operational problem within a full-scale, operating wastewater treatment plant which is appropriately staffed. | N/A | i. Member of the Water Environment Federation.  
ii. Papers must demonstrate a sound problem solving technique and should encompass the recognition and definition of the problem.  
iii. The work should describe the rationale of the solution as well as verification of its successful implementation.  
iv. The solution may include changes in operation procedures and incorporation of minor plant additions, modifications, and improvements, including the judicious application of chemicals.  
v. Articles published in a WEF periodical or in a WEF Member Association publication during the calendar year immediately prior to its consideration are eligible for nomination. Nominations are solicited for articles published in Member Association publications. | Nominations accepted from: WEF Member Associations  
All articles published in WEF periodicals are eligible for nomination. | 1. Submit Nomination Form  
2. Specific reasons for nomination (one page maximum)  
3. Any other supporting material required under criteria or that you feel would be helpful in the selection process. | 4/1/2017 |
| McKee Groundwater Protection, Restoration, or Sustainable Use | Recognizes significant contributions to groundwater science or engineering research published in a WEF or WEF Member Association periodical. In honor of Dr. Jack McKee, the 1962-63 president of the Water Environment Federation, a founder of the consulting firm of Camp, Dresser and McKee, Inc., and a long-time professor at the California Institute of Technology. | N/A | i. Publication must demonstrate significant contribution to groundwater science or engineering in the context of an applied problem or basic scientific inquiry.  
ii. Publication must show understanding and solution of problems related to groundwater protection, restoration, or sustainable use. | Nominations accepted from: All articles in WEF periodicals are eligible for nomination. | 1. Submit Nomination Form  
2. Specific reasons for nomination (one page maximum)  
3. Any other supporting material required under criteria or that you feel would be helpful in the selection process. | N/A |
| McKee Industrial Waste Management | The Rudolph Medal was established in 1949 and is named after Willem Rudolph, an active WEF member and primary force in industrial waste management. This award recognizes noteworthy accomplishments in any aspect of industrial waste management research published in WEF Conference Proceedings or a Federation periodical. | N/A | i. Member of the Water Environment Federation.  
ii. Specific consideration is given to the relative value of the research and its potential for broad contribution to industrial waste management.  
iii. The literary quality of the written presentation is also a standard of judgment used by the subcommittee for evaluation.  
iv. The article or paper must have been published in WEF Conference Proceedings or a WEF periodical in the calendar year immediately preceding consideration. | Nominations accepted from: Federation periodicals  
Member Association publications  
WEF Conference proceedings | 1. Submit Nomination Form  
2. Specific reasons for nomination (one page maximum)  
3. Any other supporting material required under criteria or that you feel would be helpful in the selection process. | N/A |
