OPERATOR SCHOLARSHIP

wef

Operator Scholarship Application Helpful Tips:

- Make sure your WEF membership is up to date.
  - If you need to join or renew, visit www.wef.org/JoinWEF or call 1.800.666.0206.
  - If you don't know your member number, call 1.800.666.0206 or email csc@wef.org.
- Fill out each section of your application that has a point value associated with it. See FAQ for how the application is reviewed.
- Make sure the "Total Amount Requested" is reflected accurately in your "Breakdown of Funds."
- Provide a clear and accurate breakdown of costs in the "Breakdown of Funds."
  - The clearer you can make this, the easier it is for application reviewers to follow, which will be reflected in a better score.
  - Requests with no verification will not be considered.
  - See the FAQ for examples.
- Your "Purpose/Objective of scholarship funding request" should explain what the funds will be used for.
- Your "Essay" should answer the following prompt: *What are you career goals and how will this scholarship help you meet them?*
- Additional information can be your resume, certification list, letter(s) of recommendation, additional information about the fund request, etc. It is a good idea to upload at least a resume here as there is a point value associated with this section.
- Have someone proofread your application, a second set of eyes is always helpful.
  - You can consider using AI to help proofread your essay, however applications that are purely AI written will not score as well.
