Exhibitor Exclusive: Technology Spotlight Call for Presentations

DEADLINE TO SUBMIT: February 17, 2022
SUBMIT ONLINE: www.wef.org/ResidualsBiosolids

Important Information: If accepted, the presenter(s) will need to work with the Conference Committee to develop presentation content and must abide by the set deadlines to provide materials and input. Presenter(s) agree to pay all expenses relating to contracting a booth on the exhibit floor at the conference.

Technology Spotlight Background Information

This will be the fourth time we offer technology spotlight (previously mobile session) presentations at the Residuals and Biosolids Conference. These sessions bring attendees directly to exhibitor booths for topic-focused discussions that allow presenters to showcase products and services in technical and educational presentations combined with equipment or hands-on visuals. This session is open to any exhibitor who can address the subject matter.

This session last 80 minutes. During that time, presenters are expected to give three 20-minute presentations back-to-back simultaneously with up-to 4 other exhibitors.

What is a Technology Spotlight Presentation?
• Non-PowerPoint learning opportunity
• Hands on experience between vendors, operators, and engineers

What is the process?
• Submit a one page proposal on the website by 11:59pm ET on February 17, 2022
  o Include description of proposed presentation
• All proposals will be reviewed by the Specialty Conference Steering Committee
• Committee will send feedback
• Work with committee members on final presentation
• Record final presentation (you will work with the committee on this timeline)

Technical Presentation Information
• Cannot be a sales pitch (presentations will be monitored for this)
• What does/doesn’t work for certain technologies
• Example: ideal application, size limitations, calculations, design life, tolerance of active infiltration, etc.
• Should be a technology discussion
• Topics are selected by committee with vendor input

Interested in Exhibiting at Residuals and Biosolids Conference 2022?

Examples from Past Technology Spotlight Presentations

2021 Technology Spotlight

- Digester Defense by Sludge Screening
- An Overview of Biogas H2S Removal Technologies
- Treatment of All types of Digestate from Mesophilic to Thermophilic to THP Pre-Treated sludge using the DEMON® Anammox Process
- Lessons Learned from Piloting Biosolids Composting and Leading Towards to a Successful Biosolids Management Program

2018 Mobile Session (now Technology Spotlight)

- Two years experiences of operation and maintenance of an alkali thermochemical hydrolysis process for anaerobic digestion pretreatment
- Hydraulic Mixing Optimization in Anaerobic Digesters
- Four Case Studies - Applications of Bio-augmentation & Bio-Catalysis for Enhancing Biological Treatment
- Sludge Odor Control Program at Bergen Point Wastewater Treatment Plant, Suffolk County, NY

2017 Mobile Session (now Technology Spotlight)

- Indirectly Heated K-S Paddle Dryer System
- The RDP-Fenton Batch Dryer System
- Next Generation Thermal Hydrolysis
- Thermal Hydrolysis for Sewage Treatment Current and Future Potential
- High Pressure Thermal Hydrolysis with Biogas Upgrading to Renewable Natural Gas
- Case Study of a Small Plant that Used a Stirling Engine for Biogas Cogen
