

Water Environment & Technology 2017 editorial calendar

The list below shows the main topics WE&T will cover in 2017. We also consider submissions on any water-related topic.

How to submit

- Send your article idea to magazine@wef.org by the dates listed below.
- Provide name, email, and phone number for lead author.

- Abstracts and outlines are preferred; full manuscripts accepted.
- For more information, see www.wef.org/magazine/submit.

Month	Topics	Deadlines
January	2017 State of the Industry • Pumps & pump stations Public outreach • Membranes Product focus: Flow monitoring & measurement	Sept. 30, 2016
February	Preliminary treatment • Nutrient treatment & recovery Financial resilience and sustainability • Clarification Product focus: Odor control	Oct. 15, 2016
March	Reuse • Biosolids & residuals • Workforce planning Collection systems Product focus: Flow control devices	Oct. 31, 2016
April	Biological treatment (tried & true and what's new) Decentralized systems • Disinfection & emerging pathogens Green infrastructure Product focus: Instrumentation	Nov. 15, 2016
May	Instrumentation • Alternate project delivery Water supply and quality monitoring • Nutrient removal & recovery Product focus: Filtration	Dec. 15, 2016
June	Odor & corrosion control • Resilience (disasters, climate change, safety) SCADA • Thickening & dewatering Product focus: Process control	Jan. 15, 2017
July	CSOs/SSOs • Stormwater Energy recovery & generation Industrial pretreatment & high-strength wastes Product focus: Piping installation & repair	Feb. 15, 2017
August	Disinfection • Aeration • Automation & controls Nutrient removal & recovery Product focus: Pumps & motors	March 15, 2017
September	New technologies • Health & safety Infrastructure renewal • Direct & indirect potable reuse Product focus: WEFTEC exhibitors	April 15, 2017
October	Odor corrosion & control • Pipe & tank rehabilitation & installation Stormwater • Membranes Product focus: Disinfection	May 15, 2017
November	Preliminary treatment • Industrial pretreatment & high-strength wastes Energy recovery & generation • Reuse Product focus: Tanks & storage	June 15, 2017
December	Operations Challenge • Aeration Funding & financing • Valves & flow control Product focus: Headworks & screening	July 15, 2017
