

TUESDAY, JULY 15th, 2025**WINNING AT I/I REDUCTION: BUILDING ON KEY
LEARNINGS FROM SUCCESSFUL UTILITIES****WORKSHOP A | 8:30AM - 5:00PM****REGISTRATION RATES**

MEMBER: \$195 | NON-MEMBER: \$225

This workshop will showcase successful I/I reduction programs while engaging participants in a group exercise where they will develop the key framework elements of an industry good practices program. Attendees will learn proven approaches from others as well as share various approaches and methods they have also applied in their own programs. The workshop will benefit utilities, practitioners, and policymakers/regulators by providing industry insights for establishing or resetting I/I remediation programs along a path that can provide a greater chance and degree of success.

SPEAKERS**ANDY LUKAS**, BROWN AND CALDWELL**RANIN NESIR**, REGIONAL MUNICIPALITY OF YORK**SMART INFRASTRUCTURE FOR SEWER
SOLUTIONS: UNDERSTANDING THE PHYSICAL,
DIGITAL, AND MANAGEMENT SYSTEMS THAT
MAKE SEWERS SMART****WORKSHOP B | 8:30AM - 5:00PM****REGISTRATION RATES**

MEMBER: \$195 | NON-MEMBER: \$225

Smart infrastructure can be used to inform operational decisions that ultimately improve the efficiency, reliability, and lifespan of physical assets. By implementing these solutions, it is estimated that utilizes could save up to \$320 billion in capital expenditures and operating expenses. This workshop will strive to provide attendees with insights needed to reimagine how new and existing data, assets, and technology can be leveraged to improve the efficiency of their systems while preventing overflows.

**DOS DON'TS AND DO'HS OF CLEAN WATER
CONSENT DECREES: TEXAS STYLE****WORKSHOP D | 9:30AM - 11:00AM****REGISTRATION RATES**

MEMBER: \$50 | NON-MEMBER: \$100

When talking about Texas water, it's often said that the Lone Star State is one in perpetual drought interrupted by biblical floods. This, coupled with aging infrastructure and booming population growth means that Texas wastewater infrastructure in some of its largest cities cannot keep up with I&I. Texas leads the nation with cities under Federal Clean Water consent decrees and can provide valuable insight into lessons learned in negotiating and implementing CDs and administrative orders. Come join this Texas-centric workshop and hear from representatives from Houston Public Works, San Antonio Water Systems, City of Baytown, and Corpus Christi Water as they discuss the dos, don'ts, and d'ohs! of federal consent decree negotiation and implementation.
